Foreign Account Tax Compliance Act (FATCA)

Notes for signing the "Declaration to confirm tax status under FATCA"

IMPORTANT - This document must be read with the Disclaimer which forms part of it.

Background

There are a number of substantial changes being made by financial regulators, governments and banks to ensure the protection and long-term safety of both the financial system and our clients' interests. One of these changes is the Foreign Account Tax Compliance Act (FATCA), which has been introduced by the United States (the "US") government. A number of countries have introduced local legislation to achieve the objectives of FATCA. The purpose of FATCA is to report financial assets owned by United States persons to the United States tax authorities.

How does FATCA affect HSBC and our clients?

HSBC has made a commitment to being fully FATCA compliant in all countries where we operate. This means that affected customers have to be reported to the United States tax authorities. In order to do so, we will need to obtain additional information from our clients to identify US Persons (USPs). There may also be other persons who we have to identify for this purpose.

Every year Banks and other Financial Organisations will be required to report information on financial accounts held directly or indirectly by US Persons.

Where we are not able to obtain the required information or documentation from our clients, we may have to report information on such clients to the relevant tax authority and may be required to apply the United States withholding taxes in respect of certain types of the United States payments we make to our clients or our clients' accounts in the future. We may also end client relationships.

In order to identify the clients where reporting under FATCA may apply, we need to match our customer base against certain categories set out in the FATCA legislation.

Does this apply to your organisation?

In order to make sure that we are able to match our clients against the FATCA categories, we are asking our clients to provide confirmation of their FATCA status, review the conditions that apply, and confirm that they are satisfied.

HSBC is not able to provide tax advice in respect of this process or for FATCA classification purposes.

Who do we need to report under FATCA?

We are required to report certain information on accounts held by *Specified US Persons*. This includes accounts held by the United States citizens and the United States residents, certain corporations or partnerships created or organised in the United States, as well as accounts held by certain passive entities with owners (Controlling Persons) who are the United States citizens or the United States resident persons. We will also be required to report certain information on customers or financial counterparties who do not provide us with documentation to establish a tax status under FATCA.

What is a United States Person (USP)?

The term 'United States person' includes:

- · A citizen or resident of the United States
- A corporation or partnership created or organized in the United States or under the law of the United States or of any State of the United States
- Any estate of a decedent that is a citizen or resident of the United States
- Any trust if (i) a court within the United States is able to exercise primary supervision over the
 administration of the trust, and (ii) one or more United States persons have the authority to control all
 substantial decisions of the trust.

What is a Non-Financial Foreign Entity (NFFE)?

The term Non-Financial Foreign Entity (NFFE) generally refers to a non-US entity that is not a financial institution (as defined for the purpose of FATCA). There are several different sub-categories and these are shown on the declaration for you to review and confirm whether the client entity satisfies the criteria of any of these categories and provide your certification.

HSBC is unable to provide advice about our clients' classification. If you are unable to select any of the classifications, you should seek advice from a tax professional.

What is meant by a Financial Institution under FATCA?

The term 'financial institution' is broadly defined under FATCA and generally includes all banks, entities with custody of financial assets, certain types of insurance companies and certain investment funds or investment vehicles. An entity which appoints a trustee company or an entity that is a third party asset manager or acts as the holding company to a group of companies carrying on a financial business may also fall within the definition of financial institution.

What is meant by a passive Non-Financial Foreign Entity (Passive NFFE) and Controlling Persons under FATCA?

Very broadly, Passive NFFEs are defined under FATCA as non-US entities, organisations or companies that are in receipt of passive income or hold passive assets and do not fall under any of the other FATCA classifications. These entities do not carry on a business of a financial institution.

HSBC needs to understand the ownership of such entities to determine whether they are owned by the United States Controlling Persons.

Controlling Persons are the natural persons who exercise control over an Entity. In the case of a trust, such term means the settlor, the trustees, the protector (if any), the beneficiaries or class of beneficiaries, and any other natural person exercising ultimate effective control over the trust, and in the case of a legal arrangement other than a trust, such term means persons in equivalent or similar positions. The term "Controlling Persons" shall be interpreted in a manner consistent with the Financial Action Task Force Recommendations.

If you are a Passive NFFE and have Controlling Persons that are USPs, please provide the relevant details on the declaration in the specified section.

HSBC is unable to provide advice about our clients' classification. If you are unable to select any of the classifications, you should seek advice from a tax professional.

What is meant by passive income under FATCA?

Passive income generally includes:

- · Dividends including income equivalent to dividends
- Interest including income equivalent to interest and certain returns from investments in insurance contracts
- · Certain rents and royalties other than those derived from an active trade or business
- Annuities
- Net gains from transactions, including forwards and similar transactions relating to certain types of transactions in commodities
- · Certain foreign currency exchange gains
- · Net income from notional principal contracts
- Amounts received under cash value insurance contracts or amounts earned by an insurance company
 in connection with its reserves for insurance and annuity contracts
- · Net gains from the sale of assets that give rise to certain of the above types of income.

Certain exceptions apply. For further details please seek advice from a tax professional.

What is a Related Entity?

An entity is a Related Entity of another if either entity controls the other entity, or the two entities are under common control. For this purpose control includes direct or indirect ownership of more than 50 percent of the vote or value in an entity.

What is meant by an established securities market?

An established securities market generally refers to an exchange that is officially recognised and supervised by a governmental authority in which the market is located and that has a meaningful annual value of shares traded on the exchange.

For further details, please seek advice from a tax professional.
